

Temporary Danger Areas EKD669 DAN F, EKD670 HALFDAN A, EKD671 HALFDAN B, EKD672 HARALD and EKD673 TYRA will be established in connection with UAS-Operations around offshore platforms

This AIP SUP 30/25 replaces AIP SUP 29/25, as the areas in AIP SUP 29/25 were mistakenly labeled as Restricted Areas.

Due to drone activities, 5 Temporary Danger Areas will be established over and around the following oil rigs in the North Sea:
DAN F, HALFDAN A, HALFDAN B, HARALD and TYRA.

Traffic is strongly advised not to enter the areas when drones are airborne in the areas.

Information about planned activities can be obtained from HLO (TEL +45 79 11 35 40).
Information about actual drone activity in an area can be obtained from Copenhagen Information or AFIS Tyra.
Drones will be instructed to land when they receive information about manned traffic to the relevant oil rig.
